## **Pica8 Is Participating In Networking Field Day #28 On May 6, 2022 in Santa Clara, California**

Pica8 will be presenting at **Networking Field Day #28**, part of the **Tech Field Day** conference series hosted by **Gestalt IT Media LLC**. The series is intended to bring together vendors and independent bloggers, freelance writers, speakers and influencers in the online communities to participate in an active demonstration forum for technology products important in the open marketplace today.

This event marks the second time Pica8 will be participating in Networking Field Day, following on a successful event at the previous seminar in January.

“We are pleased to again host **Pica8** at **Networking Field Day**,” said **Tom Hollingsworth, Event Lead, Gestalt IT**. “We had an effective introduction to the company previously and are now ready for an in-depth look at the product solution with our distinguished panel of technical delegates.”

Network Access Control (NAC)

RADIUS Server

Pica8 Senior Technical Marketing Manager **Mani Subramanian** provides an overview of automating **Zero Trust** networking in this month's blog post on **Pica8.com**. The return of workers back into the office is bringing with it increased utilization of campus network features, and zero trust networking is fast becoming indispensable for users wanting a seamless experience with their data across various network configurations. Pica8's **PicOS** software and **AmpCon** network controller can provide administrators with automated tools for authentication and access.

Click on the above image, or follow this [hyperlink to read Mani's latest](#), and [contact us](#) to see how Pica8 products can answer your network automation questions.

Pica8 products are designed to simplify enterprise networking. Conventionally, networking software can be used today to provide many features previously available only on closed platforms. But our theme of simplifying networking extends beyond product features.

Pica8 **simplifies the cost of ownership** through a flat-fee pricing structure for our products, and our **buy once / run anywhere** product model.

Pica8 Chief Marketing Officer Kelly LeBlanc provides details of our business and product model, and makes the case for why in the networking business: **The Network Is The Business.**
